

Distant Far Horizon

G Bm C D
1) When the mountains bloom with lupine, the streams are runnin' high,
G Em C D
Elk down in the meadow, great blues across the sky
C Bm C Cm
It all stirs a feeling to walk the trails again,
G Em C D
Unto the far horizon, where I have never been.

Chorus:

G Bm C D G
It's all out there it calls to me, land that I may never set my eyes on
G Bm
But I know its there, wild and free,
C D G C G
On the distant far..... horizon.

G Bm C D
2) When the clouds build up like castles, the wind is singin' true,
G Em C D
Fire up on the mountain, storms are brewin', too.
C Bm C Cm
It all makes me thankful of this Earth I am a part
G Em C D
I can feel it my bones, know it in my heart.

Chorus: G Bm C D G
It's all out there it calls to me, land that I may never set my eyes on
G Bm
But I know its there, wild and free,
C D G C G
On the distant far..... horizon.

3) Distant paths are callin', lead me ever on.
I guess it's just my nature to be a ramblin' one.
As long as there are wildlands, that's where I'll want to be
Walkin' softly in the shadows of the last of the big ol' trees.

Bridge:

C D G Em
There's a far horizon callin', it's some place I'll never go,
C Bm C D
But it's pristine and clean and wild, and that's all I have to know.

(Final Chorus)
