Circle of Life

©1997 by Walkin' Jim Stoltz, Walkin' Jim Music, BMI

G C
1) A song is like a thread woven into string,,
G D
Twisted and tied to everything.
G C
Time has shown, nothing stands alone,
G D G
All Nature in it sings..

2) The clouds build up and the rain falls down
Feeds the rivers, ocean bound.
Each wayward stream flows forth a dream,,
An endless dancing sound.

C D
Chorus: It's a circle of life we're a-livin'.
C D
It's a circle every which way.
G C
There's a lesson there for the givin',
G D G
So go on and give it away.

3) It's a wonderful world in which we dwell,
Treat her right and she keeps you well.
Don't step astray of nature's way,
In the long run she can tell.
(Repeat Chorus)

4) It's a planet of blue with islands of green
Let's cherish this Life and all it means.
Each death and birth rings to this earth
A whole Circle comin' clean.
(Repeat Chorus)

5) The wind takes a seed and away she blows
Where she stops no one knows.
Until shes bound to a little piece of ground
And the life within her grows.
(Repeat Chorus)
